"Renaissance Man"

Whether it be wowing crowds with his lyrical prowess or organizing community events for the elderly, [Wordsplayed](#) has emerged as one of the great riddles of modern rap music. A pioneer of the self coined "indie-trap" sound, John "Wordsplayed" Itiola uses his unique voice and whimsical lyricism to paint pictures that are equal parts fawn in mid stride and 1980's era Japanese race car engineering.□

Coming off of the success of his first solo project Clowntown and his ground-breaking collaborative project [Magic & Bird](#) Wordsplayed is now ready to delight the world with some new music.□

His latest effort ["Lo-Fi Love Part 1 \(LFL1\)"](#) has been paired with his stellar ["Lo-Fidelity Hour"](#) direct to public access television series and is due out June 1, 2018.□

Wordsplayed is a sex symbol and will be on tour in the fall.
