"Renaissance Man"

Whether it be wowing crowds with his lyrical prowess or organizing community events for the elderly, [Wordsplayed](#) has emerged as one of the great riddles of modern rap music. A pioneer of the self coined "indie-trap" sound, John "Wordsplayed" Itiola uses his unique voice and whimsical lyricism to paint pictures that are equal parts fawn in mid stride and 1980's era Japanese race car engineering.

Coming off of the success of his first solo project [Clowntown](#) and his groundbreaking collaborative project [Magic & Bird](#) Wordsplayed is now ready to delight the world with some new music.

His latest effort ["Lo-Fi Love Part 1 \(LFL1\)"](#) and ["Lo-Fi Love Part 2 \(LFL2\)"](#) have been paired with his stellar ["Lo-Fidelity Hour"](#) and ["Lo-Fidelity Nights Uncut"](#) direct to public access television series', respectively.
